

If you're interested in reiki – the energetic healing technique – but live too far from a practitioner or master teacher to experience it, why not try the new 21-day reiki online program at [www.reiki.net.au](http://www.reiki.net.au). You can learn about self-healing and be supported daily by this Internet program. The site also has articles on the subject, commonly asked questions, hot topics related to reiki and a reiki student service.
